

VICTOR FEUGA

AI FOR INNOVATION

SUMMARY

AI-focused Data Scientist with 3+ years of experience building LLM-powered applications, ML pipelines, and data products across fintech and healthcare industries. Proven track record **delivering GenAI solutions** at scale in **international environments** (France, Japan, Singapore). Seeking a Data and AI role in Japan.

CONTACT

Phone number (WhatsApp) : (+33) 6 81 60 71 24

E-mail : vicfeuga@orange.fr

HARD SKILLS

LLMs & GenAI: Prompt engineering, FastAPI, LangChain, RAG

AI/ML: Transformers, Deep Learning, Reinforcement Learning, Gen AI, Image Processing, AI Agents

Programming: Python, C++, HTML/CSS

Data & Storage: Pandas, SQL, Qdrant, Snowflake, Talend

Web Apps: Streamlit, Plotly Dash, Gradio, React

Math & Stats: Statistical analysis, Modeling, Time series

SOFT SKILLS

Strong communicator in international environments

Curious, autonomous, and impact-driven

Fast learner with a maker mindset

LANGUAGES

French : Native language

English : Full Professional (TOEIC score 970/990)

Spanish : Intermediate Mid

Japanese : Intermediate Low

INTERESTS AND HOBBIES

Rugby: Singapore Development League Champion (2025), 2nd at the Singapore 2025 10's rugby tournament

Other sports: Snowboarding, basketball, surfing

Analogue photography: Exhibited work at local medical center

Cooking: Share love of French dishes (tartare, quiche)

SIDE PROJECTS

- Automated video generator (Python, CoquiTTS, GPT4, moviepy) - 2023
- Portfolio website (HTML, CSS, JS) - 2024
- Cooking chatbot RAG assistant (Ollama, crewAI, Python, FastAPI, JS) - 2025
- Image to Nokia-Effect (JS, HTML, CSS) - 2025
- Chat to graph with MCP (Docker, SQL, Google Gemini, Plotly, Python) - 2026

WORK EXPERIENCE

Data Scientist at MERCK Healthcare APAC

AI innovations for Regional Insights & Analytics
Singapore | Since September 2024

- Created a new source of regional market insights by building a RAG-based LLM app to extract key points from unstructured pharma market reports (Python, Streamlit, OpenAI, Qdrant)
- Leveraged LLMs to translate and summarize field-force feedbacks (+300/month), surfacing key qualitative insights and improving cross-team alignment around multiple countries (Snowflake, LangChain, Claude)
- Automated personalized country and regional level market analysis, accelerating strategic decision-making for teams around the world (Python, OpenAI)

Data Analyst at MECADAQ

Finance department

Tarnos, Nouvelle-Aquitaine, France | March 2024 - September 2024

- Built a suite of BI dashboards to monitor real-time stock valuations across 3+ global sites, enabling the finance team to identify KPI and reduce manual reporting time (SQL, Power Query, Excel)
- Database management and integration of multiple sites over the world into one data system (Talend, SQL)

Apprentice Data Scientist at BNP Paribas Personal Finance in the Scoring Center

Research and innovation

Mérignac, Nouvelle-Aquitaine, France | September 2022 - September 2023

- Researched and benchmarked categorical encoding techniques to improve Random Forest model, informing best practices adopted across the scoring team
- Development of a credit card granting scorecard for an entity in South Africa (logistic regression)
- Development and optimization of classification models (XGBoost, Random Forest)

Research internship at the Knowledge System laboratory, Osaka Metropolitan University

Artificial Intelligence in education

Sakai, Osaka prefecture, Japan | May 2022 - August 2022

- Development of an emotion prediction system based on facial action units
- Research on Computer Supported Collaborative Learning (CSCL) systems

EDUCATION

Master degree of Software engineering specialized in AI

CY Tech, Pau, France | September 2020 - September 2023

- End of studies project: built an application to generate personalized cover letters from resumes and job offers using GPT-4.

University Diploma of Higher Education in Statistics and Data Analysis

UPPA, Pau, France | September 2018 - June 2020

- Statistical studies: "the runners in Béarn region", "discrimination on UPPA campus"
